

## **COMIST 300 DSPGM CE 50Hz**

Code: 5360050 Series: COMIST DSPGM

## **Technical and functional features**

- -Dual fuel natural gas/light oil burners..
- -Two-stage progressive output operation.
- -Ability to operate with output modulation by means of automatic RWF40 regulator mounted on the control panel (order separately with the specific modulation kit).
- -Compatible with any type of combustion chamber.
- -Air-gas mixing at blast-pipe and high pressure mechanical atomisation of fuel using nozzle.
- -Ability to obtain optimal combustion values by regulating combustion air and blast-pipe.
- -Maintenance facilitated by the fact that the mixing unit and the atomisation unit can be removed without having to remove the burner from the boiler.
- -Minimum and maximum air flow regulation for first and second stage by means of electric servomotor with pause closure of gate to prevent any heat dispersion to flue.
- -Tightness gas valve control, EN677.
- -Equipping for automatic fuel switching.
- -Comes with 2 flexible oil pipes, 1 oil filtre, 1 flange and 1 insulating seal to connect the burner to the application. Nozzle must be ordered separately according to the burner nominal output reqired.

## **Design features**

- -Light aluminium alloy fan part.
- -High performance centrifugal fan.
- -Combustion air inlet with device to adjust the air flow.
- -Sliding boiler coupling flange to adapt the head protrusion to the various types of boilers.
- -Adjustable blast-pipe with stainless steel nozzle and deflector disk in steel.
- -A three-phase electric motor to run fan and another to run the pump.
- -Air pressure switch to ensure the presence of combustion air.
- -Electric servomotor with mechanical cam for simultaneous regulation of combustion air and fuel.
- -Main gas train complete with control, operating, safety and pilot valves, valve seal control (if requested on COMIST 72 DSPGM), minimum and maximum pressure switch, pressure control and gas filter.
- -Gear pump with pressure regulator.
- -Atomisation unit with magnet to control the outlet/nozzle return pins.
- -Sequence controller EN 298..
- -Ultra Violet cel flame scanner.
- -Control panel comprising stop/go switch, automatic/manual and minimum/maximum selector, fuel change switch and operation, block and fuel used indicator.
- -Terminal block for the electrical and thermostatic connections to the burner and to control the second stage of working or for the connection of the electronic output regolator.
- -Electrical plant protection rating IP40.

## Technical Data - COMIST 300 DSPGM CE 50Hz:

| Minimum Rated output | 1304 | kW |  |
|----------------------|------|----|--|
| Maximum Rated output | 3878 | kW |  |

| Minimum light oil flow rate       | 110  | kg/h |  |
|-----------------------------------|------|------|--|
| Maximum light oil flow rate       | 327  | kg/h |  |
| Minimum gas flow rate             | 131  | m3/h |  |
| Maximum gas flow rate             | 390  | m3/h |  |
| Fuel max viscosity                | 1.5  | °E   |  |
| Motor rated power                 | 9    | kW   |  |
| Electric Power Supply Phase       | 3    | Ν    |  |
| Electric Power Supply Frequency 1 | 50   | Hz   |  |
| Electric Power Supply Current     | AC   |      |  |
| Electric Power Supply Voltage     | 400  | V    |  |
| Width                             | 1035 | mm   |  |
| Height                            | 1260 | mm   |  |
| Depth                             | 1750 | mm   |  |
| Weight                            | 348  | kg   |  |
| Pack Width                        | 2030 | mm   |  |
| Pack Height                       | 990  | mm   |  |
| Package depth                     | 1210 | mm   |  |
| Weight of Packaging               | 348  | kg   |  |
|                                   |      |      |  |
